

Virtual Satellite Symposium
at the 6th EAN Congress

MS looking forward: Innovations for individualised patient care

Sunday 24 May 2020 - 13:45-14:45

MS looking forward: Innovations for individualised patient care

Agenda

13:45 WELCOME AND OPENING - CHAIR •
Eric Thouvenot, Nimes University Regional Hospital, University of Montpellier, France

13:50 DIGITAL INNOVATION TO IMPROVE PATIENT CARE •
Mar Tintoré, Multiple Sclerosis Centre of Catalonia (Cemcat), Barcelona, Spain

14:05 INNOVATIVE RESEARCH TO TAILOR TREATMENT DOSING •
Sven Meuth, University Hospital of Muenster, Muenster, Germany

14:35 Q&A AND CLOSING
Eric Thouvenot

Mar Tintoré will showcase the latest research in digital innovations for MS monitoring and individualising care. Sven Meuth will discuss innovative research with natalizumab that is bringing a new dimension to benefit-risk decision making. Our Chair, Prof Thouvenot, will add colour to these discussions. He will also direct your chat box questions to the speakers, who will then answer them live. Don't miss this virtual live event on a Sunday afternoon!
